SUMMARY

Information Technology graduate from Imam Muhammad ibn Saud Islamic University (GPA 4.16), currently an Enterprise Applications Intern at Lumi in Riyadh. I build across three areas — Unity and C# gameplay systems, AI tools on Python and local models, and full-stack web applications — and have shipped playable games, an Arabic document summarizer, and a local-first AI workspace. I'm looking for a team where I can keep building software that holds up in real use.

EXPERIENCE

Enterprise Applications Intern — Lumi Aug 2026 – Present

Riyadh, Saudi Arabia · On-site

Enterprise application development within the product team.

PROJECTS

MasarFlow — Local-first, AI-native project workspace where notes, tasks, specs and chat threads stay on your machine, backed by a Python sidecar for embeddings, semantic search and RAG context. Next.js · React · TypeScript · FastAPI · Electron · github.com/trookish/MasarFlow

DocuMind — Open-source Arabic document summarizer that runs on local LLMs through a Streamlit interface. Python · LLM · Arabic NLP · Streamlit

Syntax Strike — Graduation project: a 3D educational action-RPG that teaches Java through in-game coding puzzles, with compiler-integrated combat and AST-based answer evaluation. Unity · C# · AST Parsing · Game AI

The Scary Library — Jam-winning horror game where an AI enemy hunts the player while they solve book puzzles to escape a haunted library. Unity · C# · Game AI · trookish.itch.io/scary-library

The Hidden Kanz — 3D dungeon crawler with wave-based skeleton AI, sword combat and magic abilities. Unity · C# · Combat Systems

IT WAS JUST A TIGHTENED SCREW — Comedy runner built in five days for SOP Game Jam 2026; placed 119th of 716 submissions. Unity · C# · Game Jam

Saudi Plate Predictor — Prices Saudi distinguished licence plates from Absher auction data: scheduled collection, a permanent SQLite history, and a price estimate with a likely and a wide range for any plate or open listing. Python · scikit-learn · SQLite · github.com/trookish/Saudi-Plate-Predictor

SecureCheck — Web platform that checks whether an email or password has appeared in known data breaches, built around a privacy-first query flow. Python · Flask · REST APIs

Recipe Hub — Recipe management web app with search, categories, favourites and an admin dashboard. PHP · MySQL · JavaScript

Smart Campus Services — Android app delivering campus announcements, product browsing, cart and contact features over a local database. Java · Android · SQLite · MVC

Restaurant Ordering System — Java application modelling a full ordering flow with tree-structured menus, order queues and stack-based inventory. Java · Data Structures

Dungeon Puzzle — Trap-dodging dungeon puzzler released on itch.io, focused on environmental challenges and survival. Unity · C# · trookish.itch.io/dungeon-puzzle

Knight With a Gun — Endless survival shooter with wave-based enemy combat, released on itch.io. Unity · C#

DragDone — Radial menu for Windows file drags: convert, compress, rename and move files from Explorer. Offline WPF app, Arabic-first with right-to-left support. C# · WPF · .NET 10 · github.com/trookish/DragDone

SKILLS

Programming: C# · Python · TypeScript · JavaScript · Java · PHP · SQL · HTML · CSS

Web & Desktop: React · Next.js · Electron · FastAPI · Flask · REST APIs · MySQL · SQLite · XAMPP

AI & Machine Learning: Large Language Models · RAG · Vector Databases · Generative AI · Game AI

Game Development: Unity · Gameplay Systems · Game Mechanics · Game Design · Blender · 3D Modelling

Engineering: Full-Stack Development · Software Architecture · Local-First Architecture · MVC · Release Engineering · HCI

Core: Problem Solving · Teamwork · Collaboration · Project Management · Self-Learning

EDUCATION

Bachelor's in Information Technology — Imam Muhammad ibn Saud Islamic University Dec 2022 – Jul 2026
Riyadh, Saudi Arabia · GPA 4.16 · Enjaz Club, game development club

Game Design and Development Bootcamp — Tuwaiq Academy Completed
Intensive game design and development track.

Complete C# Unity Game Developer 3D — Udemy Jan 2025
57.5 hours of Unity and C# game development.

Unity Game Development Courses — GameDev.tv 2024 – Ongoing
Shader Graph, multiplayer, turn-based strategy and cutscenes.

CERTIFICATIONS

McKinsey.org Forward Program — McKinsey & Company · Jun 2026

Game Design and Development — Tuwaiq Academy · Sep 2025

Complete C# Unity Game Developer 3D (Unity 6) — GameDev.tv / Udemy · Jan 2025

Unity Essentials Pathway — Unity · Jan 2025

Game Design Between Imagination and Reality — Digital Attaa Initiative · Jan 2025

Introduction to Blender — Imam Muhammad ibn Saud Islamic University · Dec 2024

Game Design and Development with Unity and Generative AI Tools — Digital Attaa Initiative · Nov 2024

Jobs in Game Development — Digital Attaa Initiative · Nov 2024

3D Game Developer Bootcamp — Imam Muhammad ibn Saud Islamic University · Oct 2024

ACHIEVEMENTS

1st Place — PwC Middle East Hackathon · 7 February 2026 — built *TourLens*, an AR-glasses indoor tour guide that overlays live visualisations for visitors at events and cultural sites in Riyadh.

1st Place — Enjaz Game Jam · 19 November 2024 — designed and shipped *The Scary Library*, a horror game with an AI-driven hunter.

119th of 716 — SOP Game Jam 2026 · 30 July – 4 August 2026 — built *IT WAS JUST A TIGHTENED SCREW* in five days; featured on stream by the jam's host.
